The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Kolla et al.

Kolla et al disclose polymeric compositions comprising flax shives. Polymers taught as suitable include polyethylene, polypropylene and polyvinyl chloride (claim 4) with the further incorporation of processing aids taught at claim 16. To the extent that the processing aid of the reference is viewed as functioning as a stabilizer and a lubricant, claims 3 and 4 are included in this rejection.

Claims 6-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 9-20 are allowed.
